

Goodsense 2.5 Ton Electric Baggage Tractor With Automatic Transmission And Steel Cabin

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: GOODSENSE
- Minimum Order Quantity: Negotiable
- Price: Negotiable
- Packaging Details: Bare packaging
- Delivery Time: 30-40work days
- Payment Terms: T/T

Product Specification

- Name: Ground Support Equipment
- Feature: Comfortable And Safe Driving
- Place Of Origin: China
- Brand Name: Goodsense
- Condition: New
- Energy Supply: Reference Introduction
- Advantage: Safe And Stable
- Highlight: 2.5 ton electric baggage tractor,
goodsense electric tow tractor,
goodsense electric baggage tractor

Product Description

Absolute occupational
A Work of Top Performance

Advanced GOODSENSE technology introduces 2.5 ton baggage tractors. Designed clearly to meet indicating vocational needs, the fast traveling speed and small turning radius of the baggage tractor bring prominent operability to any construction plant. What's more, the reformatory shape and fashionable low outline add a complicated contact. When traveling, towing or turning, it's clear the baggage tractor has earned its market as a professional.

Absolute feasible

GOODSENSE's lineup of diesel engines, tailored with the leading engineering for exclusive use in ground support equipment, offers you a choice for drive power.

Statistics in recent years have shown that the amount of material handled by baggage tractors and the distance traveled are both increasing. In answer to this trend, GOODSENSE offers its powerful Kohler KDI2504TCR, Yanmar 4TNE98, Hatz 4H50TIC diesel engine on the diesel baggage tractor models. It provides the power to overcome the challenges of drawing large loads at high speed over long distances and up steep slopes and grades.

Absolute discrimination

Operator's Compartment:

Here, full advantage was taken of GOODSENSE's design professional knowledge to create an operator's compartment that makes sense — maximum efficiency and response with minimum operator tiredness.

The floor offers an unexpected amount of amplitude, with meters and gauges in an comprehensive showing of new design for maximum visibility. What this all adds up to is ergonomic design for top operator comfort and outstanding operability — the key to top productive forces.

Seat: This seat of the 2.5 ton baggage tractor provides both comfort and support to reduce tiredness during long hours of operation. A suspension seat with amortisseur is optionally available to help soften the ride even more.

Drawbar Lever & Pin: From the seat, the operator has a clear view of the drawbar pin and can easily operate the drawbar lever. A hydraulic drawbar lever is available as an option.

Automatic Transmission: The direction switch is big and textured for easy operability. The automatic transmission adopts Germany ZF, Japanese Okamura and Italy Graziano brand.

Steel Cabin: The perfect option for baggage tractors used in climates that are extremely cold or have lots of rain. It helps to boost both comfort and safety.
